FEEDING DIRECTIONS:

Feed continuously as the sole ration to goats in confinement at the rate of 2-3% of the growing goats body weight. Offer a good quality forage. Use as Directed. Provide plenty of fresh, clean water at all times.

DO NOT feed to sheep or wool producing goats.

CAUTION: For Ruminants (goats) only. Do not allow horses or other equines access to feed containing Monensin. Ingestion of Monensin by horses has been fatal. Monensin medicated cattle and goat feeds are safe for use in cattle and goats only. Consumption by unapproved species may result in toxic reactions. Do not exceed the levels of Monensin recommended in the feeding directions, as reduced average daily gains may result. Do not feed to lactating goats.
